

# FOUNDATIONAL BELIEFS OF COLUMBINE ELEMENTARY

---

## **BELIEFS**

### **I. We believe in the dignity of all people.**

- We believe every child has worth and arrives at school being a unique individual.
- We believe that all students can and will become confident in their abilities, and we encourage them to take risks and assume responsibility for their own learning.
- We believe in respectful, civil interactions between adults in all situations and at all times as we seek to teach our children to do the same. We believe that children benefit from community members working as a team.
- We believe in the shared wisdom and life experience of the generations that came before us.
