**ARTICLE I: POLICY PHILOSOPHY**

Recognizing that providing a high quality education for the children of District Re-2 is the paramount aim of this School District and that good morale in the teaching staff is necessary for the best education of the children.

It is hereby declared that: The Board of Education; hereinafter referred to as the Board, and Woodland Park School District Re-2; hereinafter referred to as District, under law, has the final responsibility of establishing policies for the District. No policy calling for joint or mutual agreement by or with the Woodland Park Education Association; hereinafter referred as the Organization, will divest the Board of its final decision making authority.

The Superintendent and staff have the responsibility of carrying out the policies as established.

The professional teaching personnel have the major responsibility of providing the best possible education.

The Board believes that providing a quality education for the children of the District is their aim and that the character of such education depends predominately upon the quality and morale of the teaching service, and that the members of the teaching profession are particularly qualified to assist in formulating policies and programs designed to improve educational standards.

To this end, the Board hereby declares its intent to use the procedures detailed in Article II, immediately following, to endeavor to insure that all modifications to these Articles I through VII be subject to mutual agreement between the Board and the Organization.

In the event any provision or application of these Conditions of Employment to any certified employee or group of certified employees is found to be contrary to law, then such provision or application will not be deemed valid, except to the extent permitted by law; but all other provisions or applications will continue in full force and effect.

## **ARTICLE II: POLICY CHANGE CONSIDERATIONS/MEET AND CONFER**

### **Section 1: Meetings**

Both parties agree to meet for the purpose of reaching agreement on issues brought by either party prior to any changes being made to the Conditions of Employment for Certified Employees. The first and subsequent meetings will be scheduled by the 2+2+3+1 Committee.

### **Section 2: Process**

This process applies only to how the provisions of the Conditions of Employment for Certified Employees are changed.

- A. Each party will be responsible for the selection of the representatives for their constituents. These representatives will make up the Large Circle.
  1. All representatives of the Large Circle will be trained in the agreed-upon consensus model.
  2. Large Circle Membership will include but not exceed the following: 1 WPEA representative from each elementary (3), 2 WPEA representative from each middle and high school, the WPEA President, 3 WPEA and/or CCSEA classified representatives, 2 Board of Education members, 2 building level administrators, and 3 district administrators.
  
- B. Each party will determine the issues from their constituency and said issues will be presented at the first meeting of the parties of the 2+2+3+1 Committee. Issues will be presented one at a time in an alternating fashion by parties. No further issues will come to the table after the conclusion of the 2+2+3+1 Committee unless mutually agreed upon by all parties.

- D. Subcommittees will be established maintaining equal representation of the parties. The subcommittees will have the authority to share and/or exchange issues with other subcommittees, determine what information is needed, prioritize issues and make recommendations to the Large Circle which issues should be eliminated, agreed to or continued to be discussed. If a spin-off issue arises in a subcommittee, said issue will be returned to the Large Circle for direction on the status of this issue.
- E. The Large Circle of representatives will meet periodically throughout this process in order that the subcommittees may report on progress and check for further direction.
- F. All issues will be brought to the Large Circle for final consensus.
- G. Following consensus, on all issues, said agreements will be presented to the Board and the Organization for a vote on the total package of agreements. If either of the parties fails to ratify the agreements in total, all issues will be returned to the Large Circle for further discussion.
- H. Following ratification by both parties, unless otherwise provided, this agreement will be in effect November 1 through October 31 in the year to which it is applicable.
- I. The Large Circle, as well as the subcommittees, will operate by the agreed upon consensus model.
- J. Parties may solicit feedback and input from their respective constituencies throughout this process on issues agreed upon through the Large Circle.

### **Section 3: Time**

Large Circle members should plan for the commitment of sufficient time for Large Circle meetings as well as additional time for subcommittee work. This time will be structured as follows:

#### **Section 4: Communication**

- A. At the beginning of each session, Large Circle members will be given the opportunity to bring up any concerns that need to be addressed. All members will maintain a professional demeanor, and adhere to the established norms with the acceptance of individual integrity and no fear of reprisal. At the conclusion of each meeting, a summary will be given with opportunities for all members to share any feelings regarding issues from that day.
  
- B. As means of communication between the Board and the Organization, a representative of the Organization will be appointed as an ex officio, non-voting member of the Board, but will be excluded from executive sessions.

#### **Section 5: Facilitation**

**ARTICLE III: EMPLOYEE RESPONSIBILITIES, RIGHTS AND WELFARE**

**Section 1: Shared-Decision Making**

The District has as its highest priority the best instructional program possible for its students. This priority is expressed in the Mission Statement as developed by a broad base of people represented by parents, community members, students, Certified and Classified staff members, as well as the Board.

It is a further belief that an excellent instructional program is developed and delivered by a professional staff and administration that is dedicated and well trained. One aspect of an excellent instructional program is the recognition that those people directly involved in the instruction of students need the responsibility as well as the accountability to make the decisions that affect instruction as close to the instructional program as possible. Therefore, the Board supports the development of a shared-decision model in the District.

The terminology of a shared-decision model contains two components. Site based decisions refer to the concept that decisions are best made at the level closest to the people affected by those decisions. Shared-decision refers to a participatory method of decision-making. Shared-decision making is a broader concept that includes the concept of site-based decision-making. A shared-decision model has various components. Some of the components include: parameters of decisions, levels of decisions, design of a variety of shared-decision models, communication and accountability systems, and etcetera.

The model of consensus building is recognized and endorsed as a process to be used in shared-decision making. It is also recognized that consensus building is only one of many possible tools as decisions are made in a collaborative effort. A basic tenet of consensus building is the belief that shared-decision making is a way to make decisions in an environment of respect for each individual and each group. Problems are handled not as sides but as issues to be solved in a creative way.

At this time it is not possible to identify all the parameters of shared-decision. As we move toward development of the concept, there will be discussions and reassignment of responsibilities that will need to take place as new issues are identified. This open-endedness is recognized and accepted as we move to a new way of making decisions in the future.

The Board recognizes that all the development of a shared-decision model is an evolutionary process. All of the complexities of development of a shared-decision model in the District are unknown at this time. As issues come up they will be discussed and resolved.

The District believes there are various levels of decisions to be made in a complex organization such as a school system. The various levels at which decisions are made include:

A. Board Level Decisions

The Board has determined to use a Policy Governance model and as such sets the ends policies and charges the Superintendent to carry out those policies. Ends Policies define the goals and measured outcomes for the District including staff and students.

B. District Level Decisions

The Board directs the Superintendent of Schools to carry out the Ends Policy.

C. Building Level Decisions

Decisions that reflect instructional programs are often best made at the level closest to the students. The staff and administration of each school building need to develop a

system of shared-decision making. Each building is responsible for determining building goals, budget development reflecting those goals, curriculum delivery systems, instructional practices, hiring, and day-to-day operations. In order to insure that shared-decision making is working at the optimum level within the building, each building will be required to have an annual evaluation of the process in place for their shared-decision making model.

D. Building/District Decisions

1. The District will be responsible for staff development programs to meet District goals. The District will coordinate staff development when programs will assist more than one building. Staff development programs are to be developed by the buildings independently to meet building goals. Each building is responsible for funding its own staff development programs to meet its goals.
2. All buildings participate in state and local assessments. Buildings have the autonomy to implement their own formative or common assessments.
3. Decisions that are made in one building that can potentially affect the programs or instructional delivery systems of curriculum in other buildings need to be referred to a standing broad based committee that reflects the views of other buildings as well as views of the District.

**Section 2: Teacher Responsibilities**

- A. Teachers are responsible for maintaining a continuous high level of professional service to the welfare and benefit of the students of the District. Therefore, teachers are responsible to conduct themselves professionally as well as make a conscientious effort to meet, as required within reason, with children, parents, colleagues, and/or consultants.
- B. The District from time to time, might require certified personnel to update their knowledge or skills in school related areas. If this situation arises, the District will provide adequate timelines for reasonable completion of the requirement.

**Section 3: Teachers Personnel Files**

- A. Access to a teacher's personnel file will be subject to the provisions of the Colorado Open Records Law.
- B. Upon request, a teacher will have the right to review the contents of his/her permanent personnel file (and to make copies of any document contained therein at the teacher's expense), with the exception of recommendations provided to the District on a confidential basis or information protected by law.
- C. Except as provided in B, no materials derogatory to a teacher's conduct, service, character, or personality will be placed in the teacher's permanent personnel file unless the teacher has had an opportunity to review such material. Anonymous materials will not be placed in permanent personnel files. The teacher will acknowledge that he/she has had the opportunity to review such material by signing the copy to be filed, with the

understanding that such signature in no way indicates agreement with the contents. The teacher will also have the right to submit a written response to such material and will be reviewed by the appropriate District official and attached to the file copy.

- D. All formal documents will be signed and dated by both teacher and supervisor before placement in the file.

#### **Section 4: Teacher Work Product**

The ownership of materials, processes, or inventions, including computer software programs, developed by persons in the employ of the District – including faculty and all other staff – produced solely for the District and at District expense will be vested in the District and will be copyrighted or patented, if at all, in its name.

To encourage employees to develop such materials and programs for use within and outside the District, special agreements may be initiated between the creators of the materials and the District, through the Superintendent. In those instances, where materials, processes, inventions, or computer programs are produced by an employee with District support, by use of significant time, facilities, equipment, or other District resources, the ownership of the materials, processes, inventions, or computer programs will be vested in the person designated by written agreement between the parties and entered into prior to the production. In the event there is no such written agreement entered into, the ownership will be vested in the District.

The ownership of materials, processes, inventions, or computer programs developed solely through the individual effort, time, and expense of the employee and be copyrighted or patented, if at all, in his or her name.

#### **Section 5: Discipline**

Disciplinary interviews and reprimands will be considered in private except that a teacher will be entitled to have a representative of the Organization, or some other representative of the teacher's own choosing, present at any meeting when disciplinary action is to be taken or is being investigated. The teacher has the right to rebuttal.

#### **Section 6: Grievance**

Any teacher with a grievance will follow the procedure outlined in Policy [GBK-R1](#) found on District Website - Online Policy Search.

#### **Section 7: Calendar Work Year and Day**

The teacher contract year will be 177 days for returning staff members and 179 days for newly hired staff members. The calendar for a part-time staff member is based on full-time equivalency (FTE). Attendance at Parent/Teacher Conferences is mandatory regardless of FTE status. Teachers will work four 12 hours days, two per semester, to allow for evening conferences. Each 12 hour day will be equivalent to 1.5 contract days. Each building, coordinated through the District, may determine its own conference schedule.

As professionals, staff is expected to attend reasonable building and District obligations.

The non-student contact days will be allocated as follows:

- Three days (2 Staff Development and 1 Work) prior to the beginning of the school year (Four days [3 ½ Staff Development and ½ Work] for newly hired staff members);
- Collaboration days will be allocated throughout the District school year as a time for professional dialogue, collaborative planning, and/or professional development aimed at improving student learning and growth;

The teacher should notify the District in writing in advance of a leave requested. The administrator will make a decision in a timely manner.

### **Section 9: Teachers Leaving Time**

School day for teachers will begin 15 minutes to 30 minutes before student instruction begins and end 15 minutes to 30 minutes after students are dismissed. In a safety situation, teaching staff will be allowed to leave school following the final student dismissal only when staff presence is not required to meet District obligations.

The Board does not recognize a policy whereby para-educators are hired in lieu of professional teachers.

Recommendation: The Board states that a pupil-teacher ratio of 20:1 in grades K-3 and 25:1 in the intermediate and upper grades is desirable.

On a yearly basis, the administration will work to get as close the recommended class sizes as possible. This will involve finding solutions at each building and between buildings.

### **Section 16: Committees**

#### **A. General District Committees**

- Principals will make everyone aware of all District committees that will operate during the school year as the need arises.

Building proposals regarding alternatives will be presented to the Superintendent for review. Planning time will be a shared responsibility of the District and the buildings.
