

Woodland Park School District  
'Elevate Your Education'

*Serving Woodland Park, Divide and Florissant*

Dear Parents/Guardians,

The Colorado Department of Public Health and Environment has implemented a database that some physicians and clinics utilize to record immunizations that students receive in their offices. The database is a useful tool for schools, day care centers, and camps that need to have immunization records for the children to attend these facilities. This database is called the Colorado Immunization Information System (CIIS).

We have partnered with Teller County Public Health to implement a grant to enter the immunizations of the students that attend Gateway, Columbine, Summit, Woodland Park Middle School and Woodland Park High School into the CIIS database. Many of the students already are in the CIIS database, because their physician or clinic uses this database and entered the information when they received their immunizations. If your child is already in CIIS, we will just make sure the information is correct and update the database with any additional immunization information we have on file for your child. If your child is not in CIIS, we will enter his or her demographic information and any immunization information that the school has on file into the database. A Public Health nurse will be completing this data entry, so will have access to your child's information.

If you would like your child's immunization information entered into the database, please sign the form below and return to your child's school nurse.

If you have any questions or concerns, feel free to call your child's school nurse.

Misty McMahan RN:  
Columbine 686-2303  
Gateway 686-2043  
Summit 686-2404

Dawn Stone RN:  
Middle School 686-2267  
High School 686-2022

I, \_\_\_\_\_ (Parent or Guardian name),  
give Woodland Park School District (WPSD) and Teller County Public Health (TCPH) permission  
to enter my child's immunizations into the CIIS data base.
